

Our WEBT Project

As the topic for our project we would like to take the topic „Sports“ from the topic list.

Content

Our static Website will contain the following things:

We will:

- Present different types of sports.
- Outline the benefits of doing sports.
- Illustrate the negative aspects of being a couch potato.
- We will point out the importance of having a balance between physical and mental activities.
- And were gonna suggest some places where certain types of sports can be done.

In the second semester we are going to program a little sports simulation game, which also will be putted on the website. It will be based on the oldest game that ever existed, which is named “Pong” and will be table tennis themed.
